EDUCATION

- University of California, Berkeley**
 - Bachelor of Science in Computer Science* 2014 - 2018
 - Relevant Coursework:* Data Structures, Algorithms, Software Engineering, Database Systems

SKILLS SUMMARY

- Programming Languages:** Python, JavaScript, TypeScript, Java
- Web Frameworks:** Django, Flask, React, Node.js
- Databases:** PostgreSQL, MongoDB, Redis
- Tools & Technologies:** Docker, AWS, Git, Linux

EXPERIENCE

- Tech Solutions Inc.**
 - Senior Software Engineer* 2021 - Present
 - Led development of microservices architecture serving 1M+ daily users
 - Mentored 3 junior developers and improved team code review process
 - Reduced application response time by 40% through database optimization
- StartupCorp**
 - Full Stack Developer* 2018 - 2021
 - Developed MVP for B2B SaaS platform from concept to launch
 - Built responsive frontend using React and modern CSS frameworks
 - Designed and implemented RESTful APIs with comprehensive documentation

PROJECTS

- E-commerce Platform:** Built a complete e-commerce platform with user authentication, payment processing, and inventory management using Python, Django, and PostgreSQL
- Data Analytics Dashboard:** Interactive dashboard for business intelligence and data visualization using Python, Pandas, and Streamlit

RESEARCH EXPERIENCE

- Machine Learning for Web Performance Optimization:** Research on using ML algorithms to predict and optimize web application performance, published in IEEE conference proceedings
